Django Oscar API

This package provides a RESTful API for django-oscar.

```
build passing codecov 94%

docs passing pypi package 3.1.2
```

Usage

To use the Oscar API application in an Oscar E-commerce site, follow these steps:

- Install the django-oscarapi package (pip install django-oscar-api).
- 2. Add rest_framework and
 oscarapi to
 INSTALLED_APPS

3. Add the application's urls to your urlconf

```
from django.urls import

urlpatterns = (
    # all the things you
    path("api/", include
)
```

Python 98.4%Other 1.6%

4. Apply migrations:

python manage.py migrate

See the Documentation for more information and the Changelog for release notes.
